

HANIF NAHWAN NURHADI

Bachelor of Computer Science (Fresh Graduate)

Bekasi, West Java, Indonesia | (+62)81211387568 | hanifnhwn@gmail.com | linkedin.com/in/hanifnurh | https://hanifnurh.vercel.app/ | github.com/hnifnurh

Summary

Information Technology graduate from Universitas Brawijaya with experience in data analytics and UI/UX design through academic and real-world digital projects. Experienced in collecting, cleaning, processing, and analyzing data, developing interactive dashboards, and building ETL workflows to support data-driven insights. Hands-on experience in developing ETL pipelines using Mage.ai and Docker, integrating employee data from Odoo into DuckDB, and collecting and analyzing 500+ academic records through web scraping and Power BI visualization. Skilled in SQL, Power BI, web scraping, and ETL processes, with additional experience in designing digital interfaces using Figma based on user and business requirements. Curious and eager to learn, with strong analytical thinking, problem-solving, and adaptability skills. Interested in pursuing opportunities as a Data Analyst or Data Engineer and applying analytical and technical skills to develop practical solutions for business needs.

Experience

UI/UX and Designer

PT RAPS MAJU BERSAMA (RAPS GROUP) - Bekasi, West Java February 2026 – Present

- Managed and maintained 6+ company websites, handling updates, requirements, and feature improvements based on user and business needs.
- Designed user-centered interfaces through research, wireframing, and prototyping to improve usability and consistency.
- Created 30+ digital assets and social media creatives for promotional campaigns and digital marketing.

Data Visualization and Data Analyst Intern

Unit Gugus Jaminan Mutu (GJM) - FILKOM UB - Malang, East Java March 2025 – July 2025

- Collected, cleaned, and analyzed 500+ academic records across semesters using automated web scraping from institutional systems.
- Integrated datasets into Power BI to build interactive dashboards for monitoring teaching performance and academic quality.

UI/UX Designer

RAJA Brawijaya 2023 - Malang, East Java June 2023 – August 2023

- Designed and structured website interfaces to improve information delivery and user navigation for the university's annual student orientation program.
- Collaborated with stakeholders to align interface design with event branding while maintaining clarity and consistency across pages.

Education

S.Kom Universitas Brawijaya - Malang, East Java

August 2022 – July 2026

Bachelor of Information Technology, GPA of 3.68

- Google Solution Challenge 2022 - Participant

Projects

Employee Data Integration Pipeline (Odoo - Mage.ai - DuckDB)

Academic Projects (Data Warehouse) October 2025 - December 2025

- Built an ETL pipeline using Mage.ai and Docker to extract and transform employee data from Odoo.
- Loaded processed Odoo data into DuckDB for analytics and reporting.

Training & Certification

Memulai Pemrograman dengan Python from Dicoding September 2026

Belajar Dasar Structured Query Language (SQL) from Dicoding September 2026

Belajar Dasar Data Science from Dicoding **s**September 2026

Belajar Dasar Pemrograman Web from Dicoding January 2026

Fundamental Software Engineering from RevoU August 2025

Organizations and Leadership

TEDx Universitas Brawijaya 2025

Video Production September 2024 - September 2025

- Directed and coordinated a cross-functional team in producing TEDx Universitas Brawijaya's promotional video, managing project scope, production workflow, and on-site execution.
- Delivered and published the final video on the official TEDx Talks YouTube channel, achieving higher audience engagement than previous promotional content.

Google Developer Group on Campus

Lead Media Creative Core Team September 2024 - September 2025

- Led a cross-functional team in design and content production, achieving 100% completion of media deliverables while supporting technology initiatives and campus events.

Company Profile - Eksekutif Mahasiswa UB 2023

Executive Producer and Director June 2023 - November 2023

- Led end-to-end production of the organization's company profile video, coordinating a multidisciplinary team across 4+ production areas including storyline, set design, filming, and scheduling.
- Produced the organization's first company profile screened at CGV, reaching 200+ audience and 5K+ online views while optimizing production time and budget.

Eksekutif Mahasiswa Universitas Brawijaya 2023

Staff Kementrian Komunikasi dan Informatika January 2023 - December 2023

- Managed digital content workflows, including requirements gathering, task coordination, and content delivery across platforms.
- Supported organizational programs through cross-team coordination, including the Design Bootcamp and company profile production.

Skills & Languages

- **Data & Analytics:** Python, SQL, PostgreSQL, DuckDB, Power BI, Microsoft Excel, Web Scraping, ETL
- **Data Engineering & Tools:** Docker, Git, Mage.ai, Firebase, Supabase, Pusher, Vercel
- **Development & Design:** HTML, CSS, JavaScript, React, Laravel, Kotlin, Flutter, Figma, User Research, Wireframing, Prototyping
- **Languages: Indonesian (Native), English (Proficient)**
